We welcome and look forward to seeing you for all your dental, sleep, and orofacial needs. Services offered include Cosmetic Dentistry Implants, Invisalign, Zoom, TMJ, Orofacial Pain, Snoring & Sleep Apnea. Aside from his dental expertise, Dr. Simmons is recognized nationally as an expert in the treatment of sleep apnea and Orofacial Pain. He lectures across the country as well as teaching at UCLA and USC. He has helped thousands of patients through the years to lead healthier, more productive and pain free lives, by treating their Sleep Apnea, Orofacial pain and dental needs. Our goal is to provide extraordinary care to patients who can appreciate the difference. We are in continuous pursuit of excellence in clinical care and patient services as a team of warm professionals. We want all of our patients to have healthy, comfortable, natural and attractive smiles, as well as the ability to manage their pain and/or sleep issues. We feel it is a professional responsibility to be a continuous student. We regularly attend education courses to ensure that we are knowledgeable in all phases of dentistry and to stay current with the rapid innovations in our field. We want to welcome you warmly and sincerely each time you enter our office. Since most of our patients come to us from referrals by medical colleagues and/or our existing patients, we strive to live up to our reputation of competence and personalized medicine.
