I, Edward Mofrad CPA CVA MBA, started this practice in 1996 as a part-time endeavor. Fresh from working for the Internal Revenue Service, I was eager to implement some of the many ideas that had occurred to me while working with the taxpayers from "the other side". At the outset, though, I only meant to provide seasonal tax services. We are a full-service professional tax/valuation/accounting practice, preparing/filing all kinds of tax returns (If it is tax, we do it!) plus business valuations and other related services (such as corporate/partnership startups/dissolutions and FBAR filings.) Did you know... Domestic partners need not be of the same sex? Federal government is bit-by-bit recognizing same-sex unions as reflected in the tax law? Same-sex couples' reporting and filing as such is now mandatory, but options abound in amending prior-years? See our Website/contact us for more information.
