At Crane Optical, providing exceptional eye care is more than just our profession—it's a family tradition. Serving Southeastern Michigan since 1949, we are proud to be one of the longest-standing businesses in the community, caring for individuals and families for generations. Founded by Dr. Leonard Crane in downtown Ferndale, our practice has remained in the same location ever since. In 1972, Dr. Howard Crane, Dr. Leonard Crane's son, joined the practice, and together, they built a legacy of trusted eye care that has served thousands of patients over six decades. In addition to comprehensive eye care, we offer a wide selection of top brand name frames, contact lenses, and high-quality lenses. Our services also include minor medical treatments, as well as pre- and post-operative care for laser eye and cataract surgeries. At Crane Optical, our philosophy is simple: just as regular visits to your family doctor and dentist are essential, so too is regular eye care. We rely on our vision more than any other sense, yet many eye conditions often go unnoticed without routine exams. Early detection can lead to more effective treatments, ensuring you continue to see the world clearly for years to come.
