I have been in the real estate services business in the south jersey real estate markets for many successful years and will be here for many more. This longevity and confidence come from my real estate services to a great many buyers and sellers, and their recommendations to others that result in repeat and referral business that keeps us productive and successful.

As a full-service south jersey real estate professional, I work with buyers, sellers and investors in real estate transactions spanning all the price ranges and property types.

Residential Single Family: Our residential single-family services connect buyers with sellers every day, and I do it with professionalism and a total dedication to my clients. This property type is the majority of my market transactions, but by far not the only one in which I have expertise.

Condominiums: While condominiums are residential, they re a very different market focus, and we are experts in evaluating condos and helping buyers and sellers to cope with the special financing and homeowner concerns for this property type.

Multi family: Investors are great clients for us. Multi family properties are a unique market. The detailed return on investment and valuation calculations investors need to evaluate properties for rental are second nature to us.

Default Specialists: I have been working in the default industry for 14 years. I work with banks to liquidate their Reo inventory.

Short Sales: I have worked this industry as well for many years. Most of our short sale leads come from the lenders themselves so we can have answers on offers within days rather than weeks.
