When purchasing an investment property securing the best deal sometimes requires a borrower to act fast and close quickly. When you're looking for a lender to assist you in financing your purchase, it may not be reasonable for you to wait for a lengthy process as with traditional banks. In addition, if you're seeking funds to Fix and Flip, traditional banks are reluctant to loan money on properties that require repair. Unlike banks, Private Money lending has few requirements, can close fast and offer flexible loans. Your rate is based on the borrower's Fico Score and experience. Qualified borrowers may qualify for 100% financing! Borrower must be registered as a business entity. We loan on Non-Owner Occupied, SFR (1-4 units), Acquisition, Cash Out, Refinance, Rehab, Commercial, Mixed Use, Mobile Homes, Multi-Family and more! I look forward to assisting you to get your deal funded. David Caracappa www.SuccessoFunding.com
