Medical care for gender transition is provided by our Gender Services team in friendly neighborhood clinic settings, including access to primary care, as well as specialty services within our well-respected multi-specialty clinics. We provide hormone therapy, some surgical therapy, and general preventive health care. All our providers are open to new gender patients in Gender Services, and to caring for LGBTQ patients in their other practices: family medicine, internal medicine, and obstetrics/gynecology. As an OB/GYN, I can provide post-surgical care and other gynecologic services for transgender patients. I also provide services within my general OB/GYN practice for lesbian and gender diverse patients. Please call for an appointment! Dr. Thorp sees patients in Gender Services in Minneapolis and OB/GYN in St Louis Park.
