

Shanti Project

730 Polk Street 3rd Floor
San Francisco, CA, California 94109
United States

Phone: 415-674-4700

Shanti's mission is to enhance the quality of life, health and well being of people living with life-threatening illnesses. Our programs address the barriers that prevent underserved individuals from accessing the care that they need. Annually, Shanti serves over 2,400 people with HIV/AIDS or breast cancer. Shanti helps our clients enroll in care, receive emotional support and practical assistance, obtain and take their medications, stay in treatment, address substance use issues, reduce isolation and depression and find and access other needed services.
