Minikon Law, LLC is a full-service Maryland immigration law firm providing legal services in all immigration matters. We work hard to keep families and loved ones together, and to ensure that those at risk of harm in their home countries due to their sexual orientation know all of their options to remain safe from persecution. We offer innovative solutions to complex immigration problems. Attorney Minikon, who heads the firm, has over 24 years of experience in the field of immigration law and is a member of the Maryland and District of Columbia bars as well as the American Immigration Lawyers' Association. Clients can rest assured that the legal counsel given to them is backed by the necessary experience and the strategies proposed have been tested over time or are the best options given the situation. In this era of exorbitant immigration application fees, clients cannot afford to have applications denied and application fees lost due to inadequate experience or a lack of attention to details. Our main office is in Greenbelt, Maryland. Client meetings can be arranged by appointment only in our Baltimore and Rockville, Maryland, satellite locations.
