Fertility Source Companies has been in business since 2003 and our goal is to provide individuals and couples assistance in beginning or growing their family. This includes matching with an egg donor, gestational surrogate, or both. As one of the largest egg donation and surrogacy agencies operating on a national level in the United States, we are proud to provide you with the most comprehensive third party reproductive care and coordination. Through its divisions, The Donor Source and The Surrogacy Source, the company's purpose is to provide the highest degree of commitment, support and guidance to intended parents, egg donors and surrogates. Fertility Source Companies is proud to offer our services to the LGBT community, and we have had great success assisting LGBT intended parents on their rewarding journey to parenthood. When considering a surrogate pregnancy or selecting an egg donor, come to Fertility Source Companies with the confidence that our caring staff will help guide you toward your goal while recognizing the amazing journey you are on. We can connect you to the necessary resources to help you learn about surrogacy laws in your area and other distinctions specific to your journey. Our current CEO, Donna Raidy, and former CEO, Steve Masler, are founding members of the Society for Ethics in Egg Donation and Surrogacy (SEEDS). As a founding agency, we have always been committed to putting ethical business

practices first. We are a member of American Society for Reproductive Medicine (ASRM), abiding by all guidelines set forth. The Donor Source™ - Since 2003 we have served over 4,500 national and international intended parents. We offer intended parents a unique and interactive database allowing you to customize search preferences, receive email notifications when new donors are added, save “favorite” donors, and reserve a donor instantly. This unique combination of benefits offers our intended parents more security that their donor will be available and eligible as they embark on this extraordinary journey. The Donor Source is a leading egg donor agency that includes a database of over 350 qualified and available egg donors who have been met with and thoroughly counseled as to the commitment involved in an egg donation cycle. All donors are pre-qualified based on ASRM and FDA guidelines along with a comprehensive personal and family history profile. The Surrogacy Source™ - The Surrogacy Source is a specialized surrogacy program that carefully matches intended parents with gestational surrogates. You can rest assured our surrogates have been fully screened through a background check, insurance review, and psychological evaluation. We are able to identify excellent candidates for our intended parents through in-depth review of pregnancy records by our Registered Nurse. Through the user-friendly database, gestational surrogates and intended parents can breeze through the application process and profiles searches. Both will also have a dedicated Director to help guide them through the matching process to find the best fit. Three of our staff members are experienced gestational surrogates with intimate knowledge of your journey from start-to-finish. We surpassed 620 live births as of January 2021 and we couldn't be happier in supporting our intended parents and gestational surrogates through their incredible journeys.
