I have been living and working in Hampton Roads for just under a decade. I built a successful business from the ground up, with my customer service setting me above my competitors. My love of working with people and providing great customer satisfaction led me to real estate. The real estate market is ever changing and using a licensed real estate agent to assist you is essential. I am certified as a Seller Representative Specialist and am a Certified Negotiations Expert. My job is to make the transaction as smooth and problem free as possible for you. I want you to be stress free and comforted by the knowledge that everything has been covered. Together, we can do great things.
