We are the faces of marriage equality . . . 10,000 Couples was launched in October 2009 as a FREE online magazine, or e-zine, dedicated to celebrating, affirming, and strengthening the commitment of gay and lesbian couples to one another, to their relationships, and to their families. The goals of 10,000 Couples are not complex, thanks to you! You told us you're proud of yourself and your family. So we're working to share the faces of as many as 10,000 of our beautiful best same-sex couples from around the globe to represent the real faces of marriage equality. You told us you wanted relevant and practical information. 10,000 Couples is committed to providing useful information to and about same-sex relationships in every stage of the relationship. Each monthly Issue provides subscribers with original, compelling, and current content aggregated from a wide variety of authors. From personal profiles, to tips for handling that first encounter with "the one," to childproofing your kitchen, right through to financing your retirement, 10,000 Same-Sex Couples eMagazine gives each matter the seriousness and the humor this community deserves. You also told us you want to support the community. We are also committed to building support for and with the lesbian, gay, bisexual, and/or transgendered (LGBT) community and like-minded groups.
