

Web Based

Coparents.com is a site of meeting to make a child, called more collectively site of coparenting. Thanks to the solidarity, several solutions are proposed to the homosexual parents-to-be wishing to start a family and to share the happiness of a next birth.

So, the lesbian couples can be inseminated thanks to a sperm donation. They will have the opportunity, with a site of coparenting, to find the good person to satisfy their desire for baby. Gay men can, them, meet a single woman or a lesbian couple looking for a coparenting. For the countries where it is authorized they can appeal to a surrogate mother.

With coparents.com, site of meeting to have a baby, the homosexual couples can contact and communicate with other coparents worried of starting a family. They so have the opportunity to concretize their desire and quench their thirst of parenthood.
