United States

Phone: 610-310-0619

Ramsey Builders is a family owned, licensed and insured home improvement contracting business. We serve Berks, Chester, Delaware and Montgomery Counties. "I started Ramsey Builders because I felt a deep need to preserve the traditional values, craftsmanship and work ethic handed down by carpenter to helper for generations against a growing culture of bottom lines and careless speed. We are here as an alternative for the conscientious home owner who understands that remodeling a kitchen or building an addition is more than just wood and dollars – it is a personal investment that adds value and functionality to your home, because it is built well and to your taste. No matter what the size and budget, I will personally oversee and actively participate in every step of the remodeling process, from the initial design to the last bead of caulk, guiding my apprentices and trusted craftsmen to the completion of your project. We are dedicated to water, electricity and fuel conservation by using high efficiency products that lower the impact on the environment and save you money." – Jeff Ramsey, Owner
