West Coast Surrogacy, Inc. (WCS) and West Coast Egg Donation, Inc. (WCED) are boutique style, full service agencies located in Southern California offering both surrogacy and egg donation for intended parents. Working with individuals and couples (both straight and gay), surrogates and egg donors nationwide, WCS/WCED uses a multi-disciplinary, team-oriented, affirming care approach that encompasses the highest level of integrity, support and compassion, with 24-hour client care. It is our pledge to guide your intended parents through every step of this life-changing process, acting as both a resource for information and an unparalleled support system. West Coast Surrogacy, Inc. has enjoyed an outstanding reputation and has helped to bring nearly 200 babies into this world since our inception in 2007. Our highly experienced staff, many of whom have been surrogate mothers and/or egg donors themselves are proud to be part of this extraordinary process, and we strive to uphold the highest level of professionalism and compassion every step of the way. WCS currently has gestational surrogates available and ready to be matched. West Coast Egg Donation, Inc.'s egg donors have each passed the initial screening application, undergone an in-depth evaluation and submitted a detailed personal history profile, as well as having participated in an interview before being accepted into our program. This interview gives us an opportunity to get to know them, to understand their motivations for being an egg donor as well as answer the many questions they may have about becoming an egg donor. WCS/WCED is fully compliant with all FDA regulations and standards set by the American Society for Reproductive Medicine. We are owned and operated by Amy Kaplan, a past egg

donor and gestational surrogate mother herself with 18 years in the field of reproductive medicine, including managing several Orange County IVF centers. For more information about our services, or to see our available surrogates and/or egg donors call us at: toll free: 877.492.7411 or visit us at:
