With the recent Supreme Court decision, many Officiants are now in the business of "gay weddings." I celebrate them, but feel that by being gay myself, I bring a deeper understanding of the importance and meaning of this moment for my couples. I bring my background as a professional speaker, journalist and psychologist to my work as a nondenominational and Humanist Officiant. From traditional and formal vows to more contemporary services, I work with you to create a ceremony that reflect your journey and your love.
