The church today has lost it's way! Too many Evangelicals have become argumentative, combative & militant. They are caught up in ungodly endeavors involving divisive politics, social issues and culture wars. For this reason we feel we must make it very clear, WE ARE NOT PART OF THE "MAGA"/Trump CULT! We preach Jesus Christ and Him crucified! We believe America works when people of good will accept that you can have different opinions & viewpoints without demonizing and hating one another. That kind of conduct is godless & un-Christian. Believers come from many life experiences & perspectives. We respect differences of opinion, beliefs & convictions related to political and social issues. Hatred, name calling, baseless accusations, malice & bitterness are not welcome here. We do not preach fear or conspiracies, only Jesus Christ and the victory, peace and joy He brings to those who embrace His gospel in truth.
